Feature on the Goddess Sedna

The story of Sedna, an Inuit goddess of the sea, reflects profound emotional and spiritual transformation.

Betrayed by both her father and her husband, Sedna was cast into the ocean during a storm and as **she clung on** to the boat, her father severed her fingers forcing her to let go. She sank to the ocean's depths, her dismembered fingers transforming into marine life. However, she **embraced her new existence**, becoming a powerful sea goddess.

Her journey symbolises the **release of pain, disempowerment & betrayal**, by diving deep into one's subconscious and emotional depths. Through this rebirth, **she found empowerment & creativity, embodying transformation and growth.**

Work with the Sedna frequencies & embrace the courage to let go: transmute emotional pain : decode old patriarchal beliefs : **reclaim your self-worth**, inner power, and connection to creative abundance.
